

## Bale grabber

### FRONT LOADERS

 ALL MACHINES

#### For the heaviest loads

This grabber has two settings for picking round and rectangular bales.

Its reinforced structure is designed to carry three round bales or four rectangular bales.

The integrated bale spikes have three positions: fixed, free floating or folded for transport.

### 1301 BALE GRABBER

| HEIGHT (mm) | NUMBER OF BALES | WEIGHT (kg) | TINES  | REFERENCE   |
|-------------|-----------------|-------------|--------|-------------|
| 2 810*      | 3 or 4          | 700         | 12 + 3 | PB12DF3DGTS |
| 3 060*      | 3 or 4          | 760         | 14 + 4 | PB14DF4DGTS |

#### Common specifications

**PB12DF3DGTS:** Arms height: 2 350 mm | 12 short tines Ø 25 mm | 3 bottom tines Ø 45 mm

**PB14DF4DGTS:** Arms height: 2 600 mm | 14 short tines Ø 25 mm | 4 bottom tines Ø 45 mm

**Common:** Short tines length : 440 mm | Bottom tines length: 1 020 mm | 1 hydraulic cylinder Ø 80 mm

Flow control valve included | Bolt-on brackets included | \*Overall height of bale grabs
